IMPORTANT DETAILS

Please be aware that package prices do not include travel costs. These will be added based on the distance of the venue. If the location exceeds nominal distance, additional charges may be incurred to cover transportation and/or accommodation costs (if applicable).

Prices are also subject to variation based on the accessibility and logistics of each venue. These factors can impact the resources needed to execute an event successfully.

In instances where the venue influences the most suitable package, we are more than willing to collaborate with our clients to reach a mutual agreement. This collaboration may be influenced by factors such as available space, power requirements, and any general restrictions imposed by the venues.
